

Ledgers: SunSystems

“ We produce management accounts in **3 DAYS**, it use to take **3 WEEKS**, so its a considerable leap forward and it takes 3 days as we reframe from putting in too many accruals in, we go to actual numbers rather than load the P&L with accruals ”

The core strength of the Infor FMS SunSystems financial modules has always been that they are specifically designed to provide immediate access to all finance and accounting information for fast and effective decision-making.

SunSystems Ledger

SunSystems Ledger Accounting consists of a single integrated ledger, combining the attributes and functionality of nominal, receivables and payable ledgers, cash book and analytical/project ledger.

SunSystems Ledger Accounting provides sophisticated and flexible transaction entry as well as inquiry functions ensuring a powerful, real-time, financial transaction processing engine that lets you see the immediate impact of any financial posting, giving you greater visibility into your business.

Key Features

- Dual base-currency, providing full euro and GAAP support
- Tax reporting, with up to 100 criteria available for selection
- Automated payment terms functionality to calculate, for example, due dates
- 10 budget ledgers defined to reflect in-house requirements
- Commitment and over-expenditure checking

Key Benefits

- Users can easily report on the information needed by the business, supporting faster decision making
- Full euro-compliance and support of multiple GAAP reporting including compliance with Sarbanes Oxley and IFRS
- User-defined analysis of financial and business information to support faster decision making
- Ledgers are easily maintained with control
- Budgets can easily be reported

This powerful, real-time financial transaction processing engine lets you see the immediate impact of any financial posting, giving you greater visibility into your business.

Infor FMS SunSystems is a proven, customer-driven solution that meets the full range of the CFO's traditional and expanded business responsibilities today
