

Sapphire: the global leading partner for Infor10 Financials Business (SunSystems)

Sapphire is number one for Infor10 Financials Business (SunSystems) for ninth consecutive year

London – 6 October 2011. Sapphire is pleased to announce that it has been awarded Infor10 Financials Business (SunSystems) Partner of the Year accolade for the ninth year in a row.

Ian Caswell, Sapphire's Managing Director, accepted the award at the Infor EMEA Channel Partner Conference in Estoril, Portugal. He also took part in a panel discussion at the event, where 300 delegates were invited to gain insight into Infor's new product direction with Infor10 and corporate strategy.

"Infor is pleased to announce that Sapphire has yet again proven to be the top global producer for Infor Financials SunSystems. Sapphire continues to set the bar in terms of their commitment and ability to provide a high level of quality service to their customers while also continuing to add a significant number of new customers globally" said Infor's Financials Solutions Group Senior Vice President, Chris Murphy, adding, "Infor is very excited to continue to work closely with Sapphire as a key component of the overall global expansion of the Infor10 strategy."

2011 is shaping up to be a game changing year for Infor, not least due to the new web-based version of Infor10 Financials Business (SunSystems). In order to best meet the individual requirements of an organisation, it is possible to have a hybrid deployment of the solution, with both web-based and on-premise utilisation for office based members of the team.

"This is an exciting time for Infor and the development of the SunSystems solution" commented Ian. "We are delighted to be working with Infor to meet the ever evolving needs of our customers. The new web-based version of SunSystems is great and a particularly good fit for global companies looking for a robust accounting solution to support worldwide operations."
