**London – New York, 22 April 2009.** Sapphire Systems to show SAP Business One for the Wind Sector on booth 2734 at forthcoming industry event taking place May 4th - 7th, 2009, at McCormick Place Convention Center in Chicago, Illinois (USA).

WINDPOWER 2009 Conference and Exhibition is the largest annual wind conference and exhibition in the world featuring over 15,000 attendees and over 1,200 exhibitors. Each year, wind energy professionals gather at this event to learn about the latest industry developments and technologies, review new products and services in the expansive exhibit hall, and network with leading industry decision makers.

SAP Business One, designed exclusively to meet the needs of growing and mid-size businesses, is an integrated, affordable business management application. It's a single system that can automate critical business operations, including finance, sales, purchasing, inventory, and manufacturing. And it provides accurate, up-to-the-minute views of business data. SAP Business One is easy to buy, quick to install, and easy to use.

Ian Caswell, Managing Director at Sapphire Systems, said "SAP Business One is a great fit for organisations operating in the wind sector, as demonstrated by Knight & Carver Wind Group – one of our existing SAP Business One customers that will also be exhibiting at the event."

On taking the decision to implement SAP Business One from Sapphire Sam Brown, President/CEO of Knight & Carver said "We're excited to enter this new phase of our company's rapid growth, and are pleased to partner with Sapphire's proven team of professionals. In choosing SAP Business One, we've greatly upgraded and streamlined our total operations, allowing us to better serve our customers in every way. As a state-of-the-art company in a fast-evolving industry, we're proud to partner with SAP and Sapphire and offer the highest level of financial accounting and business management."

Mr Caswell went on to add "In addition to our office in Los Angeles, this year we opened an office in New York, enabling us to serve users throughout the States more efficiently. By exhibiting at WINDPOWER

2009 we hope to build on our existing success and demonstrate to organisations in the sector the benefits SAP Business One can bring them.”

- END -
